

## The Peter Powerhouse Foundation

The Peter Powerhouse Foundation is a childhood cancer non-profit 501(c) (3) organization which improves the lives of families who have a child with cancer. The foundation was established June, 2014 when young cancer survivor Peter Zucca of Harleysville, PA saw patients at a children's hospital walking to their appointments. There were not enough red wagons to transport them to their treatments; these wagons allow children to feel like children first and patients second. Peter hosted his first putt event to raise funds and was able to purchase 150 wagons. Since then, he has continued to raise money to help the children and families.

Currently about 50 childhood cancer families in the region receive individual support in the form of meals, holiday gifts and celebrations, mini-wishes, transportation expenses, and funeral support. We host six Red Cross Blood Drives annually, with over 1,659 units donated, equivalent to 5,000 patient lives impacted. Additionally, Peter Powerhouse contributes substantially to the local children hospitals in equipment and meals that directly support the needs of children's comfort while at these facilities.

### OUR MISSION

The Peter Powerhouse Foundation was formed to improve the lives of children that are currently fighting childhood cancer by providing donations to pediatric cancer treatment facilities, and contributing financial support to researchers to improve the lives of childhood cancer survivors.
